Please join us to hear George Case III, the former Executive Director of the Society for American Baseball Research (SABR), present a film narrated by his father, George Case, Jr. The program is a look back at Major League Baseball after WWII up to the early 1960s and its impact on the Trenton area. George Case, Jr. grew up and resided in Trenton and played minor league baseball with the Trenton Senators and major league baseball with the Washington Senators and the Cleveland Indians. He later had coaching and instructional positions with various major and minor league teams. The program was honored in 2015 by the Baseball Hall of Fame Film Festival at the Hall of Fame in Cooperstown NY.

The program is free and open to the public and appropriate for all ages. Parking is conveniently located at the school. For more information, visit
